

## Stellantis, Samsung SDI Announce Kokomo, Indiana as Site for Second U.S. StarPlus Energy Gigafactory

- Joint venture will invest over \$3.2 billion to co-locate new battery plant with gigafactory currently under construction
- Combined annual production capacity of Kokomo gigafactories to reach 67 gigawatt hours (GWh)
- Second StarPlus gigafactory production start planned for early 2027 and to create 1,400 new jobs; first StarPlus gigafactory expected to start production in first quarter of 2025
- New gigafactory is sixth battery facility globally to support Stellantis' bold electrification plan outlined in Dare Forward 2030

**AMSTERDAM, Oct. 11, 2023** – [Stellantis N.V.](#) and Samsung SDI today announced that Kokomo, Indiana, will be the site for a second battery manufacturing facility in the United States as part of the StarPlus Energy joint venture. The new StarPlus Energy plant is expected to begin production in early 2027 with an annual capacity of 34 gigawatt hours (GWh). The joint venture company will invest over \$3.2 billion (€2.8 billion) and create 1,400 new jobs in Kokomo and the surrounding areas. The total investment for both facilities will be over \$6.3 billion (€5.5 billion) and create 2,800 total new jobs.

This will be the second StarPlus Energy gigafactory in Kokomo. Construction is already underway on the [first StarPlus Energy gigafactory](#), which is on track to open by the first quarter of 2025 with an annual production capacity of 33 GWh.

“Our battery ecosystem is the foundation of our electrification strategy and our great partners Samsung SDI, the State of Indiana, and the City of Kokomo have created a compelling case for locating our sixth gigafactory in Kokomo,” said Mark Stewart, Stellantis COO North America. “The BEVs coming to our North America brands play an important role in our drive to offer clean, safe and affordable mobility for all and achieve the bold goal of carbon net zero by 2038.”

“Through construction of the second battery plant of StarPlus Energy, Samsung SDI will be establishing its largest production base for electric vehicle batteries in North America,” said Yoon-ho Choi, President and CEO of Samsung SDI. “We expect Stellantis brand vehicles powered by Samsung SDI batteries featuring supreme technologies to contribute to accelerating the U.S. transition to an era of electric vehicles.”

“Indiana’s economy is on a roll,” said Indiana Governor Eric Holcomb. “Today’s commitment from Stellantis and Samsung SDI will double the capital investment, the new jobs created, and the impact this joint venture will have on Kokomo and the state of Indiana for decades to come. This decision puts Hoosiers squarely at the center of innovating and developing the future of mobility, catalyzing Indiana’s leadership position in tomorrow’s global economy.”

“We would like to extend our sincere gratitude to Stellantis, Samsung SDI, and their joint-venture StarPlus Energy for their continued commitment and investment in our community,” said Mayor Tyler Moore of Kokomo. “The addition of this second battery plant will solidify Kokomo as one of the largest electric vehicle battery producers in North America and shows

that Kokomo continues to remain on the cutting edge of advanced automotive manufacturing.”

As part of the Dare Forward 2030 strategic plan, Stellantis announced plans of reaching a 100% passenger car battery electric vehicle (BEV) sales mix in Europe and 50% passenger car and light-duty truck BEV sales mix in the United States by 2030. To achieve these sales targets, the Company is securing approximately 400 GWh of battery capacity. Stellantis is on track to become a carbon net zero corporation by 2038, all scopes included, with single-digit percentage compensation of remaining emissions.

**STELLANTIS FORWARD-LOOKING STATEMENTS**

*This communication contains forward-looking statements. In particular, statements regarding future events and anticipated results of operations, business strategies, the anticipated benefits of the proposed transaction, future financial and operating results, the anticipated closing date for the proposed transaction and other anticipated aspects of our operations or operating results are forward-looking statements. These statements may include terms such as “may”, “will”, “expect”, “could”, “should”, “intend”, “estimate”, “anticipate”, “believe”, “remain”, “on track”, “design”, “target”, “objective”, “goal”, “forecast”, “projection”, “outlook”, “prospects”, “plan”, or similar terms. Forward-looking statements are not guarantees of future performance. Rather, they are based on Stellantis’ current state of knowledge, future expectations and projections about future events and are by their nature, subject to inherent risks and uncertainties. They relate to events and depend on circumstances that may or may not occur or exist in the future and, as such, undue reliance should not be placed on them.*

*Actual results may differ materially from those expressed in forward-looking statements as a result of a variety of factors, including: the impact of the COVID-19 pandemic, the ability of Stellantis to launch new products successfully and to maintain vehicle shipment volumes; changes in the global financial markets, general economic environment and changes in demand for automotive products, which is subject to cyclicality; changes in local economic and political conditions, changes in trade policy and the imposition of global and regional tariffs or tariffs targeted to the automotive industry, the enactment of tax reforms or other changes in tax laws and regulations; Stellantis’ ability to expand certain of their brands globally; its ability to offer innovative, attractive products; its ability to develop, manufacture and sell vehicles with advanced features including enhanced electrification, connectivity and autonomous-driving characteristics; various types of claims, lawsuits, governmental investigations and other contingencies, including product liability and warranty claims and environmental claims, investigations and lawsuits; material operating expenditures in relation to compliance with environmental, health and safety regulations; the intense level of competition in the automotive industry, which may increase due to consolidation; exposure to shortfalls in the funding of Stellantis’ defined benefit pension plans; the ability to provide or arrange for access to adequate financing for dealers and retail customers and associated risks related to the establishment and operations of financial services companies; the ability to access funding to execute Stellantis’ business plans and improve its businesses, financial condition and results of operations; a significant malfunction, disruption or security breach compromising information technology systems or the electronic control systems contained in Stellantis’ vehicles; Stellantis’ ability to realize anticipated benefits from joint venture arrangements; disruptions arising from political, social and economic instability; risks associated with our relationships with employees, dealers and suppliers; increases in costs, disruptions of supply or shortages of raw materials, parts, components and systems used in Stellantis’ vehicles; developments in labor and industrial relations and developments in applicable labor laws; exchange rate fluctuations, interest rate changes, credit risk and other market risks; political and civil unrest; earthquakes or other disasters; risks and other items described in the Company’s Annual Report on Form 20-F for the year ended December 31, 2022 and Current Reports on Form 6-K and amendments thereto filed with the SEC; and other risks and uncertainties.*

*Any forward-looking statements contained in this communication speak only as of the date of this document and Stellantis disclaims any obligation to update or revise publicly forward-looking statements. Further information concerning Stellantis and its businesses, including factors that could materially affect Stellantis’ financial results, is included in Stellantis’ reports and filings with the U.S. Securities and Exchange Commission and AFM.*
